	Deanne Minniecon National Manager Aboriginal and Torres Strait Islander Engagement; Diabetes Australia	
	Dr Dru Armstrong Principal Lead – Strategy and Policy; Health and Wellbeing Queensland	
	Student Presentations – Session 3, Rapid Fire (3 min)	
	The intersections of racism and wellbeing for Aboriginal and Torres Strait Islander adults: A qualitative analysis of national data	<i>Khwanruethai Ngampromwongse</i>
	Using Bayesian networks to assess the benefits of anti-viral treatments in preventing COVID-19 deaths	<i>Ramona Muttucumaru</i>
	How do environmentally influenced infectious diseases contribute to chronic kidney disease in remote Indigenous populations?	<i>Samuel Barnes</i>
	Assessing Climate-Resilience of the Nepal Health System	<i>Venkat Reddy</i>
	How do climate variables affect the transmission of Dengue infection in South and South East Asia: A scoping review	<i>Mekala Fernando</i>
	An Exploration of the Social Determinants of Health Impacting Identity, Health and belonging of LGBTQ + Young People in Rural/Regional Queensland	<i>Jordan Winwood</i>
12.50 -1.30 pm	Lunch/Networking	
1.30-2.40 pm	Student Presentations – Session 4, Long Talk (8 min)	

	Very First National Scale NO2 Exposure Assessment in India using Satellite-Based Land Use Regression Model	<i>Neha Singh</i>
	Descriptive analysis of HIV knowledge and risk among Queensland tertiary students	<i>Sarah Warzywoda</i>
	Magnitude of non-prescribed antibiotic dispensing in Ethiopia: a multicentre simulated client study with a focus on non-urban towns	<i>Sewunet Belachew</i>
	The effects of heat on adverse birth outcomes in Queensland, Australia	<i>Yohani Dalugoda</i>
	Using sero-epidemiology of SARS-CoV-2 anti-S antibodies in the Dominican Republic to inform regional public health response	<i>Beatris Mario Martin</i>
	An assessment of Menstrual Health and Hygiene interventions in rural Kenya	<i>Edith Kamundi</i>
2.40-3.10 pm	<p>Q&A Panel: Changes to HDR progress review Post questions here: https://tinyurl.com/bdy8k9hx</p> <p>Dr Andrew Smirnov Director Higher Degree Research; School of Public Health</p> <p>Professor Marina Reeves Deputy Associate Dean Research; Faculty of Medicine</p> <p>Ms Ligi George HDR Liaison Officer; Graduate School</p>	
3.10-3.20 pm	Afternoon Tea	
3.20-4.30 pm	Student Presentations – Session 5, Long Talk (8 min)	
	Estimating the global epidemiology and burden of personality disorders	<i>Jamileh Shadid</i>
	Use of an emulated trial to investigate the association between nitrogen-based bisphosphonates and risk of epithelial ovarian cancer	<i>Karen Tuesley</i>
	The feasibility of a new HPV/DNA test as a primary cervical cancer screening method among 35- years- old ever-married women in a district of Sri Lanka: a cross-sectional study	<i>KCM (Kukulege Chithranganie M) Perera</i>
	Vitamin D status during and after treatment and ovarian cancer survival	<i>Tanya Ross</i>
	Navigating the machine learning pipeline: a scoping review of inpatient delirium prediction algorithms	<i>Tom Strating</i>
	Asthma predicts anxiety development in Australian children	<i>Diana Garcia</i>

	Predictive Analysis of COVID-19 Spread in Sri Lanka using an Adaptive Compartmental Model: Susceptible-Exposed-Infected-Recovered-Dead (SEIRD) Model	<i>Nayani Rajapaksha</i>
4.30-5.00 pm	Conclusion and Awards	
5.00 pm	Networking Event	

Organising team

Yukiko Ezure (Chair)

Neha Singh

Larissa Vaz Goncalves

Kelly D'cunha

Kara Jaeschke

Indin Panahi

Clare Hannan-Jones
