

# SEMINAR SERIES

## Publishing for Success

This session will discuss the publishing process from the perspectives of both researchers and publishers, give recommendations on what to consider when choosing a journal including OA (Open Access) options, and raise awareness of tactics being employed by some unethical publishing.

1. Planning to Publish:
  - i. Author responsibility and identification (ORCID; ResearcherID etc)
2. The publishing process:
  - i. Why publish?
  - ii. Different perspectives on publishing
3. Where do I start:
  - i. Where to publish?
  - ii. Choice of publishing models
  - iii. What can be published?
