

Year 1 Bachelor of Health Sciences Program Planner 2016

There are four compulsory courses in both Semester 1 and Semester 2, 2016 if you are a full-time student.

Part-time enrolment is also available.

All first year students must select courses from those listed below.

***Students who have successfully completed Year 12 or equivalent chemistry must enrol in CHEM1100, not CHEM1090.**

Bachelor of Health Sciences (Public Health) **Bachelor of Health Sciences (Provisional Entry Medicine)**

Semester 1

BIOM1050	Biology for Health Sciences
CHEM1090 *	Introductory Chemistry
or	
CHEM1100 *	Chemistry 1
PSYC1030	Introduction to Psychology: Developmental, Social & Clinical Psychology
PUBH1103	Health Systems & Policy

Semester 2

ANAT1005	Anatomical Basis of Human Movement
CHEM1221	General, Organic & Biological Chemistry
or	
HPRM1100	Introduction to Health Promotion Principles & Strategies
INDH1005	Aboriginal & TSI Health
PUBH1102	Introduction to Public Health

Bachelor of Health Sciences (Nutrition)

NB: Students who choose the Nutrition major must follow this plan. Year 1 courses are prerequisites for Year 2 courses.

Semester 1

BIOM1050	Biology for Health Sciences
CHEM1090 *	Introductory Chemistry
or	
CHEM1100 *	Chemistry 1
PSYC1030	Introduction to Psychology: Developmental, Social & Clinical Psychology
PUBH1103	Health Systems & Policy

Semester 2

ANAT1005	Anatomical Basis of Human Movement
CHEM1221	General, Organic & Biological Chemistry
HPRM1100	Introduction to Health Promotion Principles & Strategies
PUBH1102	Introduction to Public Health

Bachelor of Health Sciences (Health Promotion)

Semester 1

BIOM1050	Biology for Health Sciences
CHEM1090 *	Introductory Chemistry
or	
CHEM1100 *	Chemistry 1
or	
MGTS1301	Introduction to Management
PSYC1030	Introduction to Psychology: Developmental, Social & Clinical Psychology
PUBH1103	Health Systems & Policy

Semester 2

ANAT1005	Anatomical Basis of Human Movement
HPRM1100	Introduction to Health Promotion Principles & Strategies
INDH1005	Aboriginal & TSI Health
PUBH1102	Introduction to Public Health
