

## Health Economic Evaluation: conducting and reporting of modelled evaluations

**Course Number:** PUBH7618    **Units:** 2

**Duration:** 12 - 16th December 2016 (1 week intensive)

**Faculty:** Medicine and Biomedical Sciences

**Location:** Herston (Room TBA)

**International availability:** Yes

**Fees:** Domestic Enrolled Student - AUD\$2,180

International Enrolled Students - AUD\$3,560

Short Course Participant - AUD\$1905

### Enrolment Approval

Before attempting to enrol, you must complete the attached Proficiency Form and received enrolment approval. Print and complete the attached form and return to: [c.swart@sph.uq.edu.au](mailto:c.swart@sph.uq.edu.au)

### Course Enrolment

#### For a Short Course Participant

If you wish to register as a Short Course Participant, complete the attached Short Course Enrolment Form and go to <https://payments.uq.edu.au/OneStopWeb.aspx/transform.aspx?TRAN-TYPE=W01SOPH02> to complete your course fee payment. Send your completed form, with a copy of your fee payment receipt, to: [c.swart@sph.uq.edu.au](mailto:c.swart@sph.uq.edu.au) Please note, registration forms submitted without a fee payment receipt will not be accepted.

**This course is offered for credit towards a postgraduate degree under the code PUBH7618. You can enrol in this 2 unit postgraduate course as:**

#### A Cross institutional Enrolment

The cross institutional form can be completed online at <https://future-students.uq.edu.au/apply/cross-institutional/choose-your-course> Once completed, the submit button will automatically send the form to the correct faculty for processing.

#### A Non-Award Enrolment

If you wish to enrol and are not currently enrolled in a UQ award program you should complete the non-award program application form at this link

<http://www.uq.edu.au/study/forms/enrolment/Non-AwardApplic.pdf>

### Course objectives

This intensive 5 day workshop will be held in Brisbane at the University of Queensland in 2016. It aims to provide researchers, both Australian & international, with the practical skills to conduct a modelled health economic evaluation, from gathering the data, through developing an appropriate model, to reporting the results including sensitivity and uncertainty.

The workshop is a University of Queensland accredited subject for Masters of Public Health and Masters of Health Economics students. This subject has been presented as a second semester course annually by the University of Queensland since 2003 and has been converted to a workshop format to offer the opportunity for training of health economic researchers internationally.

### Program features

While the workshop will review the theoretical basis of health economic evaluation, the primary focus will be on acquiring the technical skills needed to design and perform an evaluation independently. The lectures and exercises focus on the practical aspects of measuring health benefits, developing appropriate models to calculate the cost per disability adjusted life year (DALY), and present the results.

The specific topics to be covered include (but are not limited to):

- health economic evaluation and priority setting
- estimating cost and effectiveness data
- health state valuation
- modelling of interventions
- sensitivity and uncertainty analysis

### Eligibility

Places at the workshop are limited and the organisers reserve the right to select applicants strictly on the basis of merit. This is an intense workshop. Applicants with good numerical skills, a basic knowledge of statistics and intermediate experience with Excel have greatly enjoyed the experience. Some participants without that level of skill have not!

Potential students must complete a proficiency assessment and obtain approval to enrol, from the course coordinator, before attempting to enrol. Print and complete the attached form and return to: [c.swart@sph.uq.edu.au](mailto:c.swart@sph.uq.edu.au) You will be contacted about your eligibility to enrol in this course.

### Additional requirements

Participants will be expected to bring a laptop computer with the following:

1. MS Windows and MS Office pre-installed (all exercises are in Excel). Please note that the trial and starter versions of Excel 2010 are not suitable because they don't allow installing add-ins.
2. Sufficient hard drive capacity (approx 5MB) is required in order to install additional software and data.

## Venue

---

The Herston Campus is adjacent to the Royal Brisbane Women's Hospital (RBWH) at Herston, is less than 5 kilometres from the Brisbane CBD and 30 minutes taxi ride from the Brisbane Airport.

### Getting there By Bus

Brisbane City Council bus services operate frequently to and from the Royal Brisbane & Women's Hospital. The closest bus stop is located almost opposite the UQ Campus on Herston Road and is just a couple of minutes walk. For timetables and further information, including a journey planner, visit the Translink Website (<http://www.translink.com.au/>) or call Translink on 131230

### Getting there By Train

Two train stations (Bowen Hills and Fortitude Valley) are located within 1.5km walk of the Campus. Timetables, journey planner and a free downloadable mobile app are available from the Queensland Rail website. <http://jp.translink.com.au/travel-information/network-information/trains/all-timetables>

## For Information

---
